A dear friend told me that when he was deployed for the Gulf War his unit was "mandated" to get the anthrax vaccine, but the officials deploying the shots said these vaccines would NOT be recorded in their immunization record! His lieutenant smelled a rat, and forbade his unit from getting these "secret shots." This shocking news clip describes the horrific consequences for a young marine who got secret shots, and how the military hierarchy abandoned him and even tampered with his vaccine records in order to avoid taking responsibility:
